Occasionally you may find yourself in a melancholic mood, but I bet when you watch these people perform, you will surely laugh at your sadness. Here's my list of the top 10 comedians in Nigeria:10 Alibaba: Ali Baba's real name is Alibaba Aeromome and he is popularly called the Grand Comedian of the Federal Republic (GCFR), a title he carved for himself as not only the father of all comedians, but the best in his field. Ali Baba is said to be the very man who invented the concept of Stand Up Comedy in Nigerian history. This great performance took him inside Aso Rock, as he no longer crack jokes for the masses as it were, but for top shots. He is also a pioneer of the event and mc for most top celebrations in Nigeria; From the presidency to other political figures in the country and beyond.9 Ulius Agwu: Julius is one of the few comedians with a future who will serve his state. Julius Agwu also has carved a niche for himself in comedy. He goes by the nickname Julius d' Genius He also delves into music with his very brand called Reel Lief Band He also announced his intentions to be the next governor of his state after people rivers verbally told him to saka: hehehe Yerr. You all remember Uncle Saka. Ok, he was a former Etisalat ambassador that port mtn in the N20million deal. He sand sand song I Don Port go MTN, which left many fans Etisalat devastated as to why their icon would port to MTN. Lol. Etisalat will not recover from this action. Uncle Saka, unlike the other comedians mentioned, is not a stand-up comedian, but in a way he happens to be one of the most popular comedians in the Nigerian sphere. he is a lecturer, singer and MTN ambassador at the moment.7 Gordons: Gordons is certainly one of the most hilarious comedians in Nigeria with his self-composed jokes especially his flair for ministry-based jokes moving to a permanent place and his constant slang often says Hallelujah among the jokes. Gordons, who calls himself Comedy Barlusconi within the political party ODP (Osusu Democratic Party) is only natural. He has released many joke compilations alike under his Gordons Comedy Klinic Wards.6 AY: Ayo Makun happens to be one of the most creative comedians in Nigeria with his AY LIVE entertainment line. AY, as many call it, is not just stand-up he is an entertainer, actor, musician and television host of his favorite, who wants to be a billionaire, which often includes other comedians, especially Bovi. He held his mini-films with top celebrities like Genevieve Nnaji, Tonto Dikeh, Nadia Buhari and many others.5 Seyi Law: Seyi Law is said to be the Gordons' partner in crime when he displays the same agility as gordons when on stage. His mini-skits, in which he played Jesus Christ on the way to being crucified while he was carrying a cross and was flogged won many viewers over the years too.4 I'm going to die: This guy is dope. If you ever sit under his influence as a comedian, you'll laugh your ribs off with his fast-mouthed kind of comedy, as he often takes on his guest and those in the crowd. Known for his funny jokes about poverty, politics with his off-color suits - He lies too. For example, I Go Dye tells the crowd I've been in the UK lately to see Barack Obama We all know Barack Obama is in the US!!! or he was at Aso Rock last week to see President Jonathan discuss his ambition to run for the presidency! Lol. He's a real rib cracker and natural.3 Apkororo: This guy is damn funny. He once made it known about his intent in adding Dettol to his soup enemies and his fans were like what!!!. Apkororo is a stand-up comedian who also diversify and often delves into music.2 Bovi: Bovi Ugbooma, who goes by the stage name Bovihas over the years aligned himself with other comedians as he climbs a comedic ladder of greatness. The Benin City Born Comedian is known for popularizing the words Akpos in most of his jokes, and just so you know, Bovi isn't just a comedian like many thought; he was in NollywoodIndustry acting funny 30-minute games before finally switching to comedy full time. I remember him cracking a joke on the day of the verdict that God was telling basketmouth to go to hell. Basketmouth was seen almost climbing on stage immediately with bottles to break his head.1 Basketmouth: Oh yes!!! If you don't know who Basket Mouth is, then you're not in this great country of ours. Well, many have dubbed him the king of comedy for his natural physics, especially as a stand-up comedian and his frequent mini-movies in collaboration with other artists, musicians and comedians alike. He's a glo ambassador with a difference. His real name is Bright Okpocha and he's also won the hearts of many other African nations like Ghana. free to add urs #zick_digsaw.. Basketmouth and Bovi are the most consistent. Although, to be honest, they don't find bovi to be very funny. He has moments though. Akpororo is still hungry, so he gives him all his energy. I foresee its energy levels dropping as Basketmouth did when many nols hit the bank. Seyi's law is also funny, but his energy is also inversely proportional to the size of his face I'm going to die for used to be really funny, and still is, but he got a little too cocky, making his sessions a little less tempting. Either way, everyone is still reasonably funny, but that industry needs a lot of fresh blood.
